

BitStreet™ Launches Crypto Asset Marketplace Offering More Coins Than Any Other Exchange or Brokerage in Canada

March 21, 2018

Toronto, ON, Canada (March 21, 2018) – BitStreet™ (www.bitstreet.ca), located in the heart of Toronto, today announces the launch of the BitStreet™ Crypto Asset Marketplace. The company has launched the new trading platform to complement its existing concierge and escrow services for large transactions.

BitStreet™ was built to provide users with a trustworthy and reliable trading experience offering 11 digital currencies, providing more options than any other Canadian exchange or brokerage. The platform also allows users to convert from crypto to fiat and easily withdraw funds. In addition, backed by a team of experienced blockchain engineers, the company plans to identify and offer a growing list of reliable and proven digital assets.

BitStreet™ services all Canadian jurisdictions and meets current regulatory standards and requirements. The platform now supports trading with **Bitcoin, Ethereum, Litecoin, Bitcoin Cash, Bitcoin Gold, Cardano, Ripple, NEO, Nxt, Ether Classic, and OmiseGO**. The company will also continue to offer its concierge and escrow services to investors looking for a reliable and secure way to perform large transactions with our assistance.

“With BitStreet we wanted to provide Canadians with an easy to use platform that offered a broader selection of coins than what is currently available through existing exchanges in Canada. We also wanted to make it easy to get money both into and out of the digital currency marketplace. Our team is also looking forward to launching an advanced trading platform in the near future to complement the existing one.” says Jason Mitakidis, President & CEO of BitStreet.

“We created BitStreet to provide a reliable and secure way to purchase digital currencies without requiring our clients to have extensive technical expertise, and to create a convenient one-stop-shop for Canadian crypto enthusiasts,” says Ademar Gonzalez, Chief Technology

Officer of BitStreet. *"Our vision is to create seamless services and infrastructure that provide our customers with a safe and convenient way to access crypto markets."*

About BitStreet

BitStreet™ is a Toronto-based crypto exchange and concierge featuring an easy to use platform. The exchange only lists popular digital assets that are approved by our team of cryptographers to offer our users a trusted marketplace to buy and sell crypto.

BitStreet™ firmly believes digital assets will play an important role in payments processing and as stores of value, as well as have a multitude of other applications in many industries in the coming years. The exchange's long-term mission is to provide an easy-to-use marketplace that makes digital assets more accessible for everyone.

The company's founding team includes serial technology entrepreneurs, investors, and cryptographers that understand the crypto industry, the value of blockchain technology, and how to evaluate new coin offerings.
